To whom it may concern

Kingspan is proud to be a key supply partner to Thermo Design Insulation Ltd (TDI). On behalf of Kingspan Canada I would like to acknowledge that TDI has been a very significant contractor partner since our entry into Canada in 2006.

TDI possess technical competence , a "get it done" culture , the integrity and the financial & human resources necessary to ensure the success on projects of all sizes involving the use of Kingspan insulated metal panels and related accessories.

I would fully endorse TDI to any potential client.

Joe Brash  
President
